Community and Ethical Support Policy

Ethics

NU creative is passionate about maintaining good working ethics. We seek to source and purchase goods and services which are produced and delivered under conditions that do not involve the abuse or exploitation of any persons; encompassing the following aspects:

- Child/forced labour
- Conditions of work
- Health and Safety
- Discrimination
- Wages
- Hours of work
- Environment

Where possible we will shop locally. That means most of our products and services come from the UK and by local businesses. This way we get good service and we know our suppliers personally.

Our Objectives – 2016/2017

- Continue to source services and products (relating mainly to print) in an ethically responsible way

Community Support

Our local community is important to us so we try to offer support and give something back. We offer work placements for nearby colleges, universities and schools.

We also endeavour to assist staff in greater involvement in individual projects in support of the wider community by actively encouraging employees to make a difference such as mentoring, talks, giving time and helping with projects related to our industry within the local community.

Our Objectives – 2016/2017

- Investigate the viability of introducing apprenticeships within the company
- Continue to offer work experience slots to GCSE, A level and degree level students within the London area
- Actively participate in more talks/mentoring related to the creative industry within our local community
